

Product Code: Gauge Cocks

Pressure gauge cocks are intended to isolate the pressure gauge from the pressure media in order to enable inspection or replacement of the gauge where the pressure is continuously pulsating. These gauge cock can be used to isolate the gauge from process or to bypass the process for gauge maintenance

Pressure Range: Up to 25 Bar

Case Material: Brass with Plastic handle

Connection: 3/8" or 1/2" BSP

Product Code: Syphon Tubes

U-Type & Pigtail

The Syphon Tube is connected between the pressure gauge & process in applications where high temperature vapours or fluids are present or temperature above 65 Deg C for eg. steam. It acts as a cooling coil and protects the gauge from high temperature vapours, syphons also help in dissipating heat.

Pressure Range: Up to 500 PSI

Case Material: Steel (Sched 40) or 316 Stainless Steel

Connection: 3/8" or 1/2" BSP
